## Extreme Makeover: I-Branch Edition

The Canton Public Library has done some virtual remodeling. Our Internet Branch ([www.cantonpl.org](http://www.cantonpl.org)) has a fresh appearance with great new features and more information and resources than ever before. But it's more than just cosmetic — the new navigation system is intuitive and easy to use, plus new pages and features will make your virtual visit to the library more fruitful than ever.

Just like the bricks-and-mortar library, the I-Branch is also a place of discovery. Look to it for book, movie and music suggestions. Find special pages for kids, teens and local businesses. We're developing a set of more than a dozen subject pages, with librarian-recommended books, magazines, collections, databases and websites — all on topics of greatest interest to library users.

Check the I-Branch when you're at the Canton Public Library, or while you're... let's be honest, just about anywhere you can go online, any time of the day or night. The I-Branch brings the library — including its databases and catalog, along with services like MyAccount and Everything Canton — to you at home, at work, at school, even while you're relaxing at a local cafe offering wireless Internet access.

The debut of the Canton Public Library's Internet Branch came on October 18, 2000. Its emphasis — then and now — on fresh material every day makes it one of the most unique and resource packed library webpages in the country. The website makeover that you see as the I-Branch approaches its sixth anniversary has been two years in the making and was designed with you, the webpage user, in mind. Explore all that it has to offer. Log on and check out the results of our home page improvement.

## Summer Reading is in Full Bloom

This year, the whole family can get hooked on books with the library's summer reading programs. Adults can *Drive In to Summer Reading*, teens can *Read Around the World*, and children can join the *Summer Reading Celebration*. There's a program for every age and every stage so pour yourself a glass of lemonade and sit down with a good book.

## Technology @ Your Library

Technology plays a huge role in today's society, and the Canton Public Library is at the forefront in offering new features to users. Look for the Smart Card to find ways technology works for you at the library. It's another reason why your library card is the smartest card in your wallet.

## Library Adds 6 Million Titles to Catalog

### Techno-Thrillers

Technology and crime add up to major suspense in these thrilling summer reads.

**Havoc** by R. J. Pineiro. CIA officer Tom Grant investigates a high-tech robbery at a government nano-weapons development agency.

**Into the Looking Glass** by John Ringo. Physicist William Weaver and Navy SEAL Robert Miller discover demonic alien visitors.

**Edge of Battle: A Novel** by Dale Brown. Major Jason Richter and his Task Force head up Operation Rampant and are targeted by a drug kingpin.

**Saucer** by Stephen Coonts. A seismic survey worker in the Sahara uncovers a flying saucer that has been resting there for 140,000 years.

Have you searched the library catalog for material with no luck? Try your search on MeLCat, the statewide catalog that makes over 6 million titles available to Canton library cardholders.

MeLCat, short for Michigan Electronic Library Catalog, allows Canton library cardholders to search for, locate and request materials from a comprehensive electronic catalog of libraries around the state, including academic libraries and the Library of Michigan, making it great for special projects and research.

Just enter your search terms into the Canton Public Library catalog. If you want to see what's available beyond our catalog, click on the button that says "Search Other Libraries" and your search will be extended to all participating MeLCat libraries. When you locate materials you want, click on the "Get This For Me" link and your items will be delivered to the Canton Public Library for pickup, usually within a few business days.

Search MeLCat from home, office or the library, 24 hours a day. For any questions, ask at the Adult Reference Desk or call the library at 734-397-0999.

## Locking CD and DVD Cases

We continually acquire new items in our audio/video collection and many now come in locking cases, indicated by a small, red square on the edge of the case. Checkout Desk staff will unlock them but if you use one of our four new self-check machines, you'll have to unlock them yourself. The self-check machines will

guide you; just watch the screen and follow the instructions. Insert the case gently into the unlocking device, front cover bar code up, and it will pop out, unlocked and ready for viewing or listening. Ask library staff if you need help.
